

How to Utilize the VI/Covetrus Instrument Sharpening and Repair Service

Follow these steps:

1. Please print and fill out the attached form. Be sure to include a copy in the box and keep a copy for your records.
2. Please list the instruments you will be sending in the applicable spaces, ex. 5 scissors, 2 needle holders, 3 clipper blades. If customer is not sure of instrument specification on work order form, have them note the instrument in the miscellaneous column.
3. **IMPORTANT:**
 - a. ALWAYS BE SURE TO INDIVIDUALLY WRAP ALL CLIPPER BLADES PRIOR TO SHIPPING. Loosely packing them will allow them to potentially knock into one another during transit and this could cause breaking of the small teeth. ****Paper towels or newspaper work fine****
 - b. BE SURE TO DO THE SAME FOR ANY DELICATE OR SMALL SHARP ITEMS (hooks, micro scissors, small osteotomes, etc.)
4. It is fine to use any box available to utilize the VI/Covetrus instrument repair program, however, if you would care to receive a repair box sent directly to you with a return shipment label, please contact our Repair Services Coordinator, GLENN LASCO via email at glenn@vitalst.com or via phone at 609-335-2097. Multiple orders can be consolidated into 1 larger box. Separate if necessary, but no need to pay extra shipping.
5. When box is packed and taped and the form is inside, please SEND BOX TO:
VI/COVETRUS
415 New Road, Suite 4A
Somers Point, NJ 08244
Trackable services are preferred methods, FedEx, UPS, or USPS Priority.
6. Current shipping rates on work order forms are:
*Next day \$20.00
*Second day \$15.00 - *Recommend second day shipping for western states.*
*Ground \$10.00
****Allow 7-10 Business Days for your instruments to be returned****

Call in Hotline Service/Contact Information

Available for support 7 days/wk: Glenn Lasco, call/text 609-335-2097

email: glenn@vitalst.com | fax 609-927-0081

Turnaround Time for Standard Shipping

1-2 days - sharpen/hone, debur, align/adjust, clean and lubricate. Corrosion, pitting, missing or broken parts or supply chain issues can delay the process. Cost of parts not included on work order will be determined after instrument examination.

Turnaround Time for Extensive Sharpening/Repair

3-4 days – parts replaced and machining. Corrosion, pitting, missing or broken parts or supply chain issues can delay the process. Cost of parts not included on work order will be determined after instrument examination.

Dental Instrument Sharpening Promotion

One free dental elevator sharpening until end of December, 2022.

Regulatory Requirements

Please remember it is a regulatory requirement to **decontaminate or sterilize** instrument before shipping. Bulk decontamination or sterilization is acceptable.

Future Orders

A new work order form, marketing collateral, return service (RS) label and receipt will be shipped to the customer with their return order so the customer is prepared for future orders. Please contact Veterinary Sales Representatives for **trade ins, warranties and purchasing of new instruments**.

PLEASE SEND THIS COPY WITH YOUR REPAIR
